## OnBase from Applied Imaging Helps Resurrection Life Church Streamline Accounts Payable Process

### Who is Resurrection Life Church (ResLife)?

Founded in 1967, Resurrection Life Church has continued to grow and expand. After over 50 years of growth, the church now averages 4,000 attendees during three weekend services and one mid-week service. ResLife, as it is called by many, includes an array of ministries for children, youth, and adults. Along with offering groups and classes, it also has hundreds of team members who help Resurrection Life Church - a community of every color, position, or past, to welcome everyone and build a common focus on developing and encouraging each other toward Christ.

### Key Challenges in the ResLife Environment

In accounts payable, ResLife was processing everything with paper - including paper purchase orders. They would send everything around the office for signatures and would end up back in the accounting office to process the checks. They would then make copies of everything to put in the appropriate boxes. This was very time consuming and lengthened the approval process.

### How Applied Imaging Helped

Applied Imaging provided ResLife's accounts payable department with an OnBase document management solution to help streamline a process that was previously awkward and time consuming. They also keep the church's accounts payable personnel updated by hosting user seminars and bringing in experts from Hyland, OnBase's hardware and software developer.

### The Benefits

- *Streamlined approval processes*
- *More timely payments*
- *Easy to look up history by check or purchase order*
- *OnBase user seminars hosted by Applied Imaging provide updated information and an opportunity to see how other businesses are benefiting*
- *Eliminated file drawers and years of file boxes full of paper*

### About Applied Imaging

For over 30 years, Applied Imaging has helped businesses across the Nation with efficiency. Our products and services help you to better communicate and manage the flow of information. From document creation to destruction - and everything in between; Applied Imaging has your back. As a locally owned and operated business, headquartered in Grand Rapids, Michigan, we have the experience and resources to exceed your expectations in every aspect of your business. Partnering with award winning software companies, like Hyland and DocuWare, Applied Imaging and the ECM team are equipped with the tenure and expertise to streamline your document workflow and ensure maximum efficiency.

**ECM, Copiers & Printers, ShredHub, MPS, NetSmart Plus**

"They help us do our job better in the accounting department and be more effective for the church. If we're more effective in our time and then cost savings, then those monies can be used for mission work or community events. I just really enjoy working with them. They are very personable. I feel like I've gotten to know them, and they've gotten to know me. It's nice to work with someone in business that you feel actually cares about helping you do your job better."
